

Continuing Education Seminar for Limited Licensed Radiologic Technologists

2023

Presented by Ray Winters, M.S., RT(R)(CT)
Emeritus Director of Radiologic Sciences at Arkansas State University

8:30 – 9:15 **X-Rays: What are they, where did they come from and should I be concerned?** (1 hr CE)

This presentation covers the production of x-radiation, what they are and some things technicians should know when working around radiation.

9:15 – 10:30 **Radiographic Positioning, Positioning Terminology & Procedures** (1.5 hr CE)

A look at common positioning and its related terminology and some of the basic procedures to accomplish satisfactory radiographic positioning

10:30 – 11:15 **Hand & Wrist, Foot and Ankle Radiography** (2.5 hrs CE)

This presentation covers radiographic anatomy and positioning of the hand, wrist, ankle and foot. Provides concepts, terminology and practical tips to prepare you to produce optimal images and review images for acceptability.

Critique practice of images will follow.

11:15 – 12:00 **Applied Radiologic Pathology** (1 hr CE)

This presentation is designed to give a basic working knowledge of pathology as it pertains to diagnostic medial radiograph, as well as demonstrate radiographic manifestations. Pathological conditions commonly encountered by physician's offices are presented and reviewed.
