Dear Mr. Ward:

In developing the materials survey and sampling pool for (print system name) \_\_\_\_\_

\_\_\_\_\_ I have researched the following:

\_\_\_\_\_ Plumbing records

\_\_\_\_\_ Building records

\_\_\_\_\_ Utility records

\_\_\_\_\_ Laboratory records

\_\_\_\_\_ Physical inspection

Other \_\_\_\_\_

1. Based on research of these records, (print system name) \_\_\_\_\_ will not be able to comprise 50% of its sampling pool with structures that have lead service lines and/or copper pipes with lead solder.

Sincerely,
